CITY OF ANTIOCH
CONTRA COSTA COUNTY, CALIFORNIA

CONSOLIDATED ENGINEER'S REPORT
FOR THE
CITY OF ANTIOCH
STREET LIGHT AND LANDSCAPE MAINTENANCE
DISTRICT NUMBERS 1, 2A, 4, 5, 9, AND 10
AND THE
LEVY OF THE ANNUAL ASSESSMENT
FOR THE 2007/08 FISCAL YEAR

City of Antioch

As accepted by Council on
May 8, 2007

Prepared by
City of Antioch
Department of Community Development
Joseph G. Brandt, P.E., Director
Ron Bernal, P.E., Assistant City Engineer
Philip Hoffmeister, Administrative Analyst

STREET LIGHT AND LANDSCAPE MAINTENANCE DISTRICT
NUMBERS 1, 2A, 4, 5, 9, AND 10
(Pursuant to the Landscaping and Lighting Act of 1972 and Proposition 218)

The undersigned respectfully submits the enclosed Engineer's Report as directed by the City Council.

Dated 5/8/07

I. INTRODUCTION

A. Preamble

In March 2001, Council considered a "reorganized" Street Light and Landscape Maintenance District (SLLMD) that would have created a single citywide District, subdivided into multiple benefit zones. In accordance with Proposition 218, ballots were sent to property owners for their approval/disapproval of that reorganized district. The result of that election was a majority "No" vote defeating the proposal. At its meeting on June 26, 2001, Council voted to approve the "Existing Light and Landscape Maintenance District", and that assessments could be levied only up to the "base assessments" for each parcel as recorded in Fiscal Year (FY) 2000-2001, plus an inflationary adjustment equal to the San Francisco Consumer Price Index (CPI) increase for the preceding twelve-month period (Resolution 2001/63).

As indicated in previous Engineer's Reports, most districts and zones did not collect sufficient assessments to finance estimated maintenance costs. Shortfalls were covered by contributions by the City General Fund. In FY 2003-04 Staff presented Council options for increasing assessments to their maximum base rates to reduce those shortfalls. In June 2003, Council decided to increase assessments to their respective maximum base assessments over a 3-year period. The final increment was approved by Council for FY 2005-06; however, some shortfalls remain. Those shortfalls continue to be paid by a contribution from the General Fund.

This Annual Consolidated Street Light and Landscape Maintenance Districts Engineer's Report continues with Council direction and presents maintenance costs for the existing lighting and landscaping districts and zones and assessments.

B. Enabling Legislation

Prior to November 1996, the City of Antioch Street Light and Landscape Maintenance Districts were governed only by the Landscaping and Lighting Act of 1972 (Streets and Highways Code Section 22500, and following) which allows a municipality or other local public agency to establish a special assessment district to raise funds for installing, maintaining and servicing public lighting, landscaping, park and recreational facilities. The revenue to pay for these improvements came from special assessments levied on the land benefiting from the improvements. The local legislative body set the assessment each year after receiving an Engineer's Report and holding a public hearing. The assessments were collected as a separately stated item on the county tax bill.

During that period, the City Council took five basic steps to levy the assessment:

- Adopt a Resolution Directing Filing of Annual Engineer's Report
- Preliminarily Approve the Engineer's Report
- Adopt a Resolution of Intention to Order Improvements
- Conduct a Public Hearing
- Adopt a Resolution Confirming the Diagram and Assessment and Levying the Annual Assessment.

A certified copy of the Engineer's Report and a computer data tape containing the assessment roll were then submitted to the Contra Costa County Auditor for collection of the approved assessments.

With the passage of Proposition 218 in November of 1996, additional actions were required to impose new, or increase existing, assessments. Proposition 218 also exempted "Any assessment imposed pursuant to a petition signed by persons owning all of the parcels subject to the assessment at the time the assessment is initially imposed." For the City of Antioch, the City Attorney has determined that the base amount of assessment that was in effect at the time a new development petitioned for annexation into the district is excluded from the provisions of Proposition 218.

C. Consolidated Engineer's Report

This Consolidated Engineer's Report recommends an assessment for parcels within each of the six Districts in the City of Antioch that are subject to an assessment, up to the base amount. The recommended assessments are based on estimates of the benefits to be received by each assessable parcel for District landscaping and recreational improvements. The benefit estimates are used to apportion costs to each assessable parcel, up to the maximum amount each parcel may be assessed without exceeding the base amount.

The 1972 Act does not specify a method or formula for apportioning costs. The assessment may be apportioned by any formula or method that fairly distributes the costs among all assessable lots or parcels.

This report summarizes the proposed assessment methods and the resulting assessments recommended. The report includes the following:

- Assessment Diagram
- Description of Improvements
- Estimate of Operation and Maintenance costs for FY 2007/2008
- Description of Assessment Methodology
- Summary of Recommended Assessments
- Assessment Roll

II. ASSESSMENT DIAGRAM

A. Assessment Districts

This Consolidated Engineer's Report covers each of the six Street Lighting and Landscape Maintenance Districts within the City of Antioch. Collectively, these six Districts encompass the entire area of the City that benefits from the improvements to be maintained. The Number and common name of each District is listed below:

**TABLE 1
DISTRICT NUMBERS AND COMMON NAMES**

District Number	Common Name
1	Hillcrest Avenue
2A	Antioch or City-wide
4	Downtown
5	Almondridge
9	Lone Tree Way
10	East Lone Tree Way

District boundaries are depicted on the Assessment Diagram on file with the City of Antioch. The Assessment Diagram shows District boundaries, benefit zone boundaries, and City streets. For a description of lines and dimensions of each lot or parcel within the District, the reader is referred to the Assessor's parcel maps on file at the County Assessor's office. The Assessor's parcel maps are incorporated by reference into the Assessment Diagram. The Assessor's parcel number is adopted as the distinctive designation of each lot or parcel.

B. Zone Boundaries

The Districts are subdivided into one or more benefit zones. These benefit zones indicate areas within which parcels of similar use receive approximately equivalent benefits from District improvements. The dividing lines between benefit zones coincide with major arterial streets or other major facilities (i.e. canal, freeway). Refer to the Assessment Diagram for a description of the zone boundaries.

III. DESCRIPTION OF IMPROVEMENTS

This Section describes the public improvements to be installed, operated, serviced and maintained by the District.

District improvements are generally described as operating, servicing, maintaining, repairing and replacing the following: public landscaping, including improvements for standard City of Antioch cul-de-sacs; public medians, rights-of-way and park sites; weed abatement for publicly owned open space parcels.

PARKS: The cost of contract maintenance and/or City work for maintenance of the neighborhood and community parks listed in Table 2. Park improvements to be maintained include, but are not limited to, tot lots, picnic facilities, landscaping and lighting, and the cost of utilities serving the park.

LOCAL LANDSCAPING: Includes the costs of pruning, irrigation, maintenance planting, debris removal and clean up along the City's trails, cul-de-sac bulbs, and local and collector streets. It also includes both contract and City work

associated with weed abatement and the maintenance of firebreaks. Localized landscaping improvements including planters, trees in the public right-of-way, sound walls and entry signs are also maintained under this class of improvement.

MAJOR MEDIAN AND ROADSIDE LANDSCAPING: Includes the costs of pruning, irrigation, maintenance planting, debris removal and clean up along the City's arterial roadway system. Roadways included in this system are A Street, Buchanan Road, Contra Loma Boulevard, Dallas Ranch Road, Davison Drive, Deer Valley Road, Delta Fair Boulevard, East Eighteenth Street, Hillcrest Avenue, James Donlon Boulevard, L Street, Laurel Avenue, Lone Tree Way, Prewett Ranch Road, Somersville Road, West Fourth Street, West Tenth Street, and Wilbur Avenue.

PROGRAM ADMINISTRATION: Includes the costs of acquiring and maintaining equipment necessary to operate the program and conduct maintenance activities and the work of management staff that provide program oversight, scheduling, budgeting and coordination for special work groups.

**TABLE 2
NEIGHBORHOOD AND COMMUNITY PARKS**

District Number	Common Name
1-1	Hillcrest Park
1-2	Country Manor Park
	Deerfield Park
	Knoll Park

9-1	Williamson Ranch Park
	Chaparral Park
9-2	Diablo West Park
9-3	Hansen Park
	Dallas Ranch Park
9-4	Heidorn Park
10	--

IV. COST ESTIMATES

Cost estimates for operating, maintaining, servicing, installing, repairing, replacing and upgrading lighting, landscaping, parks and recreational improvements are provided by the City of Antioch. Tables 3 through 22 present cost estimates for each benefit area.

Table 3
COST ESTIMATE -- 2007/2008
District 1, Zone 1 -- Hillcrest Avenue District

The following schedule shows the allocation of costs to be spread to this District/Zone (2544541)

MAINTENANCE AND SERVICES:	Base Rate Benefit Units 1,681		
	Total Cost	General Fund Contribution	Assessed
Parks	\$51,781	\$0	\$51,781

V. ASSESSMENT METHODS

Proposition 218 provides that assessments imposed by petition signed by persons owning all of the parcels subject to assessment are exempt from the requirements of Prop. 218 insofar as the amount of such assessments are not increased over the amount in effect at the time of the petition. These assessments are known as the "base amount" or "base assessments".

A large number of parcels fall within this situation and have base assessments in place. Those parcels are the subjects of this Engineer's Report. The base assessment amounts vary, depending upon when the petition was filed with the City and the scope of improvements in place at the time that were being maintained by assessment. In preparing this Report, the Engineer determined the maximum base assessment that is assessable against each parcel, the improvements that are being maintained within the benefit zone, the cost of maintaining the improvements, and the total amount generated by the relevant base assessments. In instances where the cost of maintaining the improvements is less than the maximum assessable amount, the base assessments were proportionally reduced.

The assessment method suggested was to increase assessments to the maximum base rates over a 3-year period beginning in Fiscal Year 2003-04. The final increment was reached in FY 2005-06. Allocation of assessments has been applied first to administration costs; followed by arterials medians and roadside landscaping; and finally local landscaping, trails, and open space. Park costs continue to be shown; however, where applicable, they also are shown as being paid by a contribution from the General Fund.

VI. SUMMARY OF ASSESSMENTS

The methods described in Section V are applied to estimate the benefits received by each assessable parcel, in every District and benefit zone, from the improvements described in this report.

Table 23, Summary of Costs, Benefits and Assessments by Zone, presents a summary of assessments for each District and benefit zone.

VII. ASSESSMENT ROLL

The Assessment Roll is a listing of all assessable parcels of land within the District. Because of its large size, the Assessment Roll is presented under separate cover and is incorporated by reference into this report. The Assessment Roll can be inspected at the office of the City Engineer during regular working hours.

The Assessment Roll lists each parcel in the District by its distinctive designation, the Assessor's Parcel Number, and includes the Assessment amount for each parcel.
