

REQUEST FOR PROPOSAL

**Water Park Supplies and Chemicals
For Fiscal Years 14/15 and 15/16**

BID NO. 650-0611-14F

ADDENDUM NO. 1

June 16, 2014 5:30 pm

PRE BID QUESTIONS AND ANSWERS

*Questions are unedited and appear as submitted.

NOTICE OF CHANGE TO SPECIFICATIONS AND GENNERAL CONDITIONS

1. I do only question the Parker Tubing – what is this being used for and at what PSI pressure should the tubing be rated for.

The parker tubing is for chemical feed systems. Each color represents a different system. Yellow is Sodium Hypochlorite, Red is hydrochloric acid, and green is carbon dioxide gas. Tubing should be rated for a working pressure of 125psi at 73 degrees fahrenheit

2. Will these items all be purchased at once or will these only be purchased as needed by the department.

All items will be ordered on an as needed basis. The minimum order quantity column represents the minimum quantity the City will order at a given time.

3. I wanted to know if I could get a bid tab/bid results of the last bid? Who you are purchasing from and for how much. (for chemicals)

We are currently paying the following amounts for chemicals. We have not done a blanket bid like this since I have been with the City so I do not have the History to provide

15% bulk acid-\$3.00 per gallon-Univar
 30% Acid 15 gallon carboys-93.19 each-Commercial Pool Systems
 50# bags Bi-carb- 33.75 each-Commercial Pool Systems
 50# bags Calcium Chloride- 19.85 each-Commercial Pool Systems
 Bulk CO2-\$0.38 per pound-Knorr Systems

NOTICE OF CHANGE TO GENERAL CONDITIONS

Section 14, FOB Point, is removed as it applies to this bid only. Bidders are requested to provide freight estimates in the freight column that has been added to the revised bid sheet. If the item can be will-called by the city with no shipping charges please indicate “will-call” in the freight estimate box. For clarification purposes, freight should not be added to individual product costs and the minimum order quantity on the bid sheet should be used as the basis for freight estimates. Freight should be invoiced at cost and the City reserves the right to require proof of these charges.
